

Picote Maxi Miller

Picote Solutions Pipe Cleaning & Rehabilitation

A proven machine for tough jobs, Picote high-speed Millers are powerful, multi-use machines.

The Maxi Miller is a high speed, high torque powerhouse designed for cleaning, descaling, and root removal in pipes ranging from DN70-250 (3-10") and cutting/reinstatements in DN70-200 (3-8") pipes.

When combined with the Maxi Coating Pump it has the capability of installing Picote Brush Coating™ in DN70-300 (3-12") pipes.

It has a reach of 30m (100') of 12mm (½") shaft which can be extended 1 Orn (33') using a shaft extension.

- The Maxi Miller opens the door for new jobs such as blockage and root removal, light and heavy descaling, reinstating lines in CIPP, epoxy coating, liner and concrete removal, and more.
- Optional Maxi Miller Plus model has a removable control unit on a 5m (16') cord.
- High Speed/High Torque: 500-1475 rpm.
- Standard safety features include: protective outer shaft casing, operator presence foot control, manual safety clutch, internal GFI, and an emergency stop to help keep you and your equipment investment protected.

Maxi Miller Products:

Product Code	Product Description
DCP-MAXI-KK12-30	Maxi Miller 110v - 12mm Shaft
DCP-MAXI-KK-12-30X	Maxi Miller Plus 110v - 12mm Shaft
DCP-MAXI-ST-12-33	Maxi Miller Replacement Shaft Thick Casing 12mm / 33 metres
DCP-TOC-12MM	Thick Outer Casing for 12mm Shaft
DCP-FLEX-LUBE-0-5	Picote Flexible Shaft Lubricant 0.5 litres
DCP-MILL-LUBE-6	Picote Flexible Shaft Lubricant Package, includes 6 bottles

Technical Specifications

Category	Measurement
Pipe Size Ranges	
Cleaning / Descaling	DN70-250 (3-10")
Cutting/ Reinstatement	DN70-200 (3-8")
Picote Brush Coating™	DN70-300 (3-12")
Usable Shaft Length	30m (100')
Shaft Extensions	10m (33')
Shaft Size	12mm (½")
Casing Type	Thick
Outout Power	1.13kW
Speed	500-1475 RPM
Power	UK: 110/120V, 30 Amp
Weight	89kg (196 lbs)
Size	1150 x 854 x 489mm 45 X 34 X 19"
Safety Features	Protective outer shaft casing, operator presence foot control, internal GFI, electric safety clutch, & emergency stop.
IP Class	54

S1E Limited Specialist Suppliers of Trenchless Technology

No-dig Pipeline Repair

S1E Limited is a specialist supplier of trenchless technologies to the drainage repair industry. The company focuses on sourcing quality products for professional use. They are all tried and tested in the field to produce impressive results. S1E distributes high-quality products from market-leading manufacturers for the drainage repair industry. Products include camera inspection systems, cutting and cleaning tools, CIPP lining equipment and consumables, mechanical point repair devices, rat blockers and other site consumables.

S1E Limited is committed to being a quality supplier, with a focus on customer service. S1E is proud to be an active member of the UK Society for Trenchless Technology.

First established in 2007 as Fernco Environmental, the company's mission was to seek out repair products for the infrastructure repair and water management markets. Since 2016, it has re-focused its ranges to the specialist field of trenchless repair, with a growing portfolio in this specialist area.

The company is owned by Cooper Companies Inc, a US-based leader in the production of pipe couplings. The Group also owns companies in Canada, Mexico, Brazil, Germany and France, as well as the UK-based sister company to S1E, Fernco (previously, Flexseal).

It is accredited to ISO 9001: 2015 for its Quality Management System. It is also accredited to ISO 14001: 2015 for its Environmental Management System.
