The Picote Brush Coating™ system is a simple, fast, and practical coating solution used to renovate drains, sewers, water pipes, electrical conduits, heat, A/C ducts and more.

The Maxi Coating Pump can be combined with several different Miller models to meet your project needs based on pipe length and diameter.

Allows coating and degreasing in DN70-300 (3-12") diameter pipes up to 39m (128') in length.

- Controls the flow of the Picote Brush Coating™ 100% Solids, Dual Color Epoxy Resin.
- Can also be used to clean pipes with fats and grease by pumping degreaser down the line to assist cleaning.
- Adjustable pump speed and direction.
- Hand-held locking operator control bottom or "LOC". When the button is pushed the pump is engaged and will operate until depressed.
- Safely secures to the Miller frame.

S1E Limited Specialist Suppliers of Trenchless Technology

No-dig Pipeline Repair

S1E Limited is a specialist supplier of trenchless technologies to the drainage repair industry. The company focuses on sourcing quality products for professional use. They are all tried and tested in the field to produce impressive results. S1E distributes high-quality products from market-leading manufacturers for the drainage repair industry. Products include camera inspection systems, cutting and cleaning tools, CIPP lining equipment and consumables, mechanical point repair devices, rat blockers and other site consumables.

S1E Limited is committed to being a quality supplier, with a focus on customer service. S1E is proud to be an active member of the UK Society for Trenchless Technology.

First established in 2007 as Fernco Environmental, the company's mission was to seek out repair products for the infrastructure repair and water management markets. Since 2016, it has re-focused its ranges to the specialist field of trenchless repair, with a growing portfolio in this specialist area.

The company is owned by Cooper Companies Inc, a US-based leader in the production of pipe couplings. The Group also owns companies in Canada, Mexico, Brazil, Germany and France, as well as the UK-based sister company to S1E, Fernco (previously, Flexseal).

It is accredited to ISO 9001: 2015 for its Quality Management System. It is also accredited to ISO 14001: 2015 for its Environmental Management System.
